

BCC Vision statement

- We want to glorify God.
- We want to know Jesus and make Him known.
- We want to be a worshipping, praying, serving church, caring for and strengthening members in spiritual maturity and demonstrating God's love practically in the local community.

We want to be -

Growing in God; Growing together; Growing in the community.

Growing in God. We want our weekly service and meetings to be inspiring and uplifting, challenging and thought provoking and fully inclusive. We want people to look forward to and be enthused about coming to church and our mid week devotional meetings. We want to understand what living a faithful Christian life looks like in 21st century Wibsey, and through our prayer, study and worship we want to become more like Jesus in our character and attitudes, confident of living out our faith in our community.

The role of the Pastor:

We want you to be able to lead in all of this, making our Sunday services relevant and engaging, with effective teaching from God's word. We want you to oversee how this can be filtered down through our fellowship groups and devotional meetings, putting in place whatever is needed for people to progress no matter where they are on their own spiritual journey.

Growing together. We want to feel like church is a family, and for everyone to feel included, welcomed, respected and valued. We want to build friendships through our activities, learn from each other and build each other up. We want to be there for each other, so that all are supported as needs arise. We aim for unity but acknowledge that we won't all believe the same things or agree about everything all the time and so when called for, we disagree respectfully, humbly acknowledging that diversity may be a position from which we might learn.

The role of the Pastor:

We want you to be friendly, approachable, available and welcoming to all. This sets the tone which flows from the top. We want you to be able to get alongside everyone, no matter who they are, and by being there for them, build the family here at Beacon. You will be able to manage alternative views and opinions whilst still making everyone feel valued. (You won't be expected to do all this alone – you will be supported by an army of volunteers).

Growing in the community. We want our church to be a recognised centre within Wibsey. A place everyone has heard of. A place where people feel welcomed and comfortable upon entering. A place that is well used in keeping with our kingdom values, recognising that as Lord of all, God is concerned about our physical, mental and social wellbeing as well as our spiritual health.

The role of the Pastor:

We want you to have an outward focus, being an active, visible presence, wholly committed to and engaged within our neighbourhood. You will be a known and recognised figure, and will always be proactively seeking to bring God's care and concern to the district, making best use of all the resources that Beacon Community Church has to offer.
